

Canine Probiotic
PupSup

Canine Probiotic

Contains a Supplemental Source of Live, Naturally-Occurring Microorganisms

Directions for Use

For canine use only to provide digestive support.

Administer to larger breeds at the rate of 10 grams per day (one level 20 cc scoop).

Medium-sized breeds should receive approximately 1/2 scoop (5 grams) per day.

For small breeds, provide approximately 1/4 scoop (2.5 grams) per day.

For canine use only. Keep out of reach of other species and children. In case of accidental overdose, contact a health professional immediately.

If animal's condition worsens, or does not improve, stop administration and consult your veterinarian.
